

NRG_Selenium

Ready to get started with automated XNAT-based testing? Great! Check out the pages below:

1. [Introduction and Feature List](#)
2. [Setup and Configuration](#)
3. [Test Structure](#)
 - a. [Annotation-Based Requirements](#)
4. [XNAT Versioning](#)
5. [Selenium Pipeline Tests](#)
 - a. [PipelineMethodSorter](#)
 - b. [Advanced Usage: FileComparator and FileMutator](#)
 - c. [Advanced Usage: ElementComparators](#)
6. [JIRA Zephyr & ZAPI Integration](#)
7. [Advanced Usage: REST, PSQL, and SSH](#)

Examples are a great way to learn. Projects which demonstrate most of the capability of NRG_Selenium can be found here:

- https://bitbucket.org/xnatdev/xnat_selenium_test_suite
- https://bitbucket.org/xnatdev/cnda_selenium_pipeline_tests (especially useful if you're designing [Selenium Pipeline Tests](#))
