

XNAT Populate

Welcome to the documentation for the XNAT Populate (XPOP) project. You can get it from Bitbucket with the command:

```
git clone git@bitbucket.org:xnatdev/xnat_populate.git
```

Information about the script can be found in:

1. [Getting Started / Configuration](#)
2. [Site Configuration](#)
3. [Populate Data](#)
4. [YAML Format](#)
