

About XNAT Tools

This set of tools has been developed to interact with XNAT servers. Some were developed by the XNAT Team in the [Neuroinformatics Research Group \(NRG\)](#) at Washington University. Others were developed by XNAT users and developers around the world.

There are more tools and XNAT Extensions available at the XNAT Marketplace (<http://marketplace.xnat.org>).

Are you interested in developing an XNAT Tool? Here are some resources to help you get started.

- [The XNAT API](#) - the best way to connect to XNAT data.
- [XNAT Developer Documentation](#)
- [XNAT Marketplace Documentation](#) - tips for publishing your completed tool.
